Ruslan Muradov

Head of Quality Engineering · QA Director

Baku, Azerbaijan · Open to remote and relocation · +994 10 252 12 98 · muradov.work@gmail.com
ruslan-muradov.tech · linkedin.com/in/ruslan-m

Quality engineering leader with 10+ years in QA and software delivery. Built Kapital Bank's QA organisation from scratch: a 100+ person department with QA Chapter Leads, SDET and performance testing teams. Company-wide Quality Gates and Zero Bug Policy cut critical production incidents by 50%+, test automation grew from 0% to 40% of the core regression suite, and quality became an executive-level metric. Promoted to Head of Software Engineering, where quality gates, engineering standards, capability development and AI in testing and code review now run as one system across a 100+ person engineering organisation. Previously led QA at SberDevices, RoboFinance (UnaBank), VK and Yandex.

SELECTED OUTCOMES

- Critical production incidents down 50%+ after company-wide Quality Gates and Zero Bug Policy (Kapital Bank).
- Test automation from 0% to 40% of the core regression suite (Kapital Bank), 70% of main services (RoboFinance), ~60% API coverage (VK).
- Zero Bug Policy backlog down 86%, the best result in the company's highest-load team (SberDevices).
- Service throughput up 35% after load testing exposed the bottlenecks (VK).

EXPERIENCE

Head of Software Engineering · Bir ecosystem, Kapital Bank

Apr 2026 – Present · Baku

Kapital Bank's digital business · 100+ person engineering organisation: developers, QA engineers, analysts

- Own engineering standards, practices and quality gates as one company-wide system across three product tribes.
- Own hiring, capability development and engineering practices; delivery is owned by the tribes.
- Chapter model: grow chapter leads as multipliers of engineering capability.
- Introduced AI into testing and delivery: AI tools for QA engineers and an AI code review step in the CI pipeline.
- Tech Mastery capability programme: 40+ engineers trained and certified.

Director of QA CoE · Bir ecosystem, Kapital Bank

Jul 2024 – Apr 2026 · Baku

100+ person QA department: QA Chapter Leads, SDET, Load Engineers, QA Engineers

- Introduced company-wide Quality Gates and Zero Bug Policy: critical production incidents down 50%+, quality turned into an executive-level metric.
- Built the QA organisation and Quality Center of Excellence from scratch: structure, roles, governance model and scalable operating processes across a multi-product ecosystem.
- Designed a QA centralisation model (Strong / Mild / Weak CoE) separating central CoE and product-team responsibilities.
- Scaled test automation from 0% to 40% of the core regression suite, cutting average regression time.
- Established SDET and Performance Testing teams with playbooks for high-load payments and cards systems.
- Defined 10+ quality and efficiency metrics (Tableau, Jira) and regular quality reporting for C-level.
- Developed a 2-year QA strategy with full budget ownership, KPIs and OKRs.
- Built job profiles and a career framework with development scoring for every engineer; introduced performance review and calibration.

QA Team Lead · SberDevices

Jul 2023 – Jul 2024 · Moscow

Sber's AI devices and platforms: voice assistants, AR/VR, LLMs · 40M+ users

- Led QA across multiple cross-functional squads in the Sber ecosystem.
- Reduced the Zero Bug Policy backlog by 86%, historically the best result for the company's highest-load team.
- Grew the number of engineers writing automated tests from 6 to 9 (1.5x) with no loss of time-to-market or quality.
- Built the testing process from scratch in one team; introduced shift-left testing.

Head of QA · RoboFinance (UnaBank, Philippines)

Mar 2022 – Jul 2023 · Remote

- Managed 12 people (3 automation + 9 manual) across 6 teams in a greenfield digital bank.
- Drove test automation to 70% coverage of the main services (Java + RestAssured).
- Implemented the load testing practice (JMeter + Grafana); authored the test strategy and test plans.

QA Lead · VK (CityMobil)

Apr 2021 – Mar 2022 · Moscow

- Achieved ~60% API coverage with a Kotlin automation framework built from scratch.
- Load testing (Vegeta, GHZ) surfaced the bottlenecks whose fixes increased service throughput by 35%.
- Built the QA team from scratch; coached engineers from junior to mid level; spoke at internal conferences.

SDET · Yandex

Apr 2020 – Apr 2021 · Remote

Partner Code: advertising display platform

- Implemented the automated testing process and integrated it into Agile delivery.
- Introduced developer-written YAML cases and autotests: ~40% faster scenario creation.
- Reduced defect count by 25% via Zero Bug Policy; rolled out Hermione.js visual regression.

QA Lead · BORK & TechnoPark

Jan 2017 – Apr 2020 · Moscow

- Built the QA function from scratch; hired and grew the team to 6 engineers; mentored 6 from junior to mid/senior.
- ~90% automation coverage for BORK and ~50% for TechnoPark (Codeception, Selenium, Allure).

QA Engineer · Technoserv (SberTech projects)

Feb 2016 – Jan 2017 · Remote

- Manual QA of SberTech banking platforms (SeleniumIDE, HP ALM, Jira).

ADVISORY & PART-TIME

QA Course Developer, Mentor & Expert · Skillbox · Sep 2022 – Aug 2025. Developed and supervised a new QA course, extended existing testing courses, trained students, ran the IT experts club, spoke at conferences.

QA Automation Consultant · Hedera Governing Council · 2020 – 2022. Launched the JavaScript/Cypress automation programme and regression suites guarding consensus-layer services.

CORE COMPETENCIES

Quality leadership: QA strategy and roadmap · QA org design and CoE models · hiring, career frameworks, performance reviews · budget, KPI and OKR

Quality engineering: Quality Gates and release governance · Zero Bug Policy · shift-left testing · AI in testing and code review · automation strategy (API, UI, mobile) · performance testing · quality metrics and executive reporting

Automation: Java + RestAssured · Kotlin · Cypress · WebdriverIO · Hermione.js · Selenium · Codeception · Allure

Performance & delivery: JMeter · Vegeta · GHZ · Grafana · GitLab CI · Jira · Tableau

EDUCATION & LANGUAGES

B.Sc. in Applied Computer Science (Applied Informatics), Synergy University, Moscow
Associate Degree in Economics, Moscow Automobile & Road College

English (professional working proficiency) · Russian (native) · Azerbaijani (B1) · Turkish (A2)

PUBLICATIONS & SPEAKING

Medium: AI in Software Development: Where the Real Speedup Is, and Where It's Self-Deception (2026). HackerNoon (2022–2023): gRPC, load and API testing, QA in Scrum, Cypress. Skillbox.ru, Tproger.ru, Hexlet.io. Talks: Zero Bug Policy (Tech Guild), Skillbox conferences.
